

Welcome to the

Dutch-Norwegian Debate on  
Sustainable fisheries and  
aquaculture

The logo for the Fisheries Innovation Platform features three orange ovals of varying sizes arranged in a slight arc above the text. Below the text, there are several white, cloud-like or wave-like shapes.

FISHERIES INNOVATION PLATFORM

The ecosystem approach to fisheries is the only way to achieve sustainable fisheries and aquaculture.

Fishermen are the future  
managers of the sea.

Agree

Disagree

FISHERIES INNOVATION PLATFORM

Discarding of fish should not be allowed with the ecosystem approach.

The aquaculture industry is producing beyond the limits that the environment can tolerate.

Aquaculture is the only solution for the depletion of wild fish.

FISHERIES INNOVATION PLATFORM

Marine protected areas are an essential management tool for sustainable fisheries.

FISHERIES INNOVATION PLATFORM

Bottom trawling is a threat for the environment and should be banned.

Agree

Disagree

FISHERIES INNOVATION PLATFORM

Sustainability can only be reached if we raise consumer awareness.

Agree

Disagree

FISHERIES INNOVATION PLATFORM

Fisheries should operate market driven and independent from government support.

FISHERIES INNOVATION PLATFORM

The current use of fossil fuels in fisheries is not sustainable.

Agree

Disagree

FISHERIES INNOVATION PLATFORM

A Fisheries Innovation Platform  
will make a fishing nation flourish.

Agree

Disagree

FISHERIES INNOVATION PLATFORM

Stronger co-operation between scientists, stakeholders and government both nationally and internationally leads to better policies and management.
