Sampling of capelin and polar cod stomachs by PINRO in 2015

In total 600 capelin and 750 polar cod stomachs were collected on board RV Vilnyus in the BESS 2015. Stomach stations location is shown on the figure 7.1.

Stomachs were preserved in 10 %-formalin and delivered at PINRO for latter trophology analysis. Capelin and polar cod stomach will be processed during 2016 and Report chapter will updated.

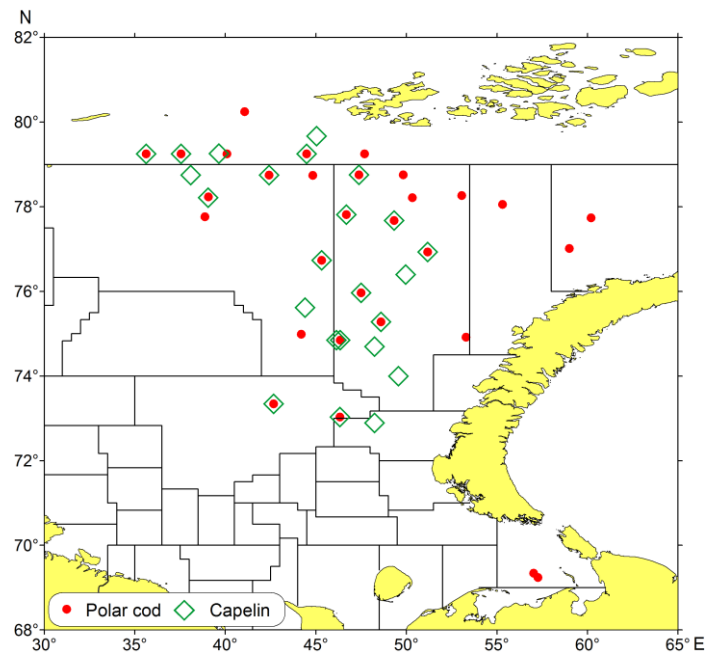

Figure 7.1. Location of capelin and polar cod stomachs sampling in BESS 2015 taken by R/V Vilnyus.
